SolidEnergetics is an entity dedicated to the research and development of sustainable technologies, founded by Jorge Díaz-Crespo Valdés, inventor and creator of the Solid Electrolyte for batteries and other applications.

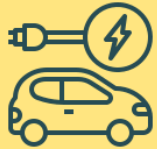

## The project

Our fundamental mission at SolidEnergetics is the constant improvement of technology, seeking to improve efficiency and explore more sustainable ways to contribute to the well-being of our planet. In addition, we are proud to actively engage in the improvement of biodegradable and environmental technologies.

At SolidEnergetics, we lead solid electrolyte innovation with a team committed to excellence. We work tirelessly to drive significant advancements in batteries and other energy-related applications, always with a focus on solutions that respect and preserve our environment.

# Areas of application

**Automotive &  
Transportation**

**Solar & Consumer  
Energy**

**Capacitors &  
Electronics**

**Aerospace  
Technology**

**Military  
Technology**

**Drones &  
Agriculture**

**Naval technology**

**Robotic  
Technology**

**Medical Devices**

**Machinery &  
Construction**

**Consumer  
Electronics**

**Conventional  
Batteries**

**Planetary  
Colonization**

**Railway Industries**

## Solid State Battery Market Size (USD Million)

## Drivers of growth

- Growing concern about greenhouse gas emissions.
- Increasing government initiatives are facilitating the adoption of Solid Electrolyte.

The growth of the market accelerated to a **CAGR (2021 – 2024)**

**33%**

APAC had the largest share

**>50%**

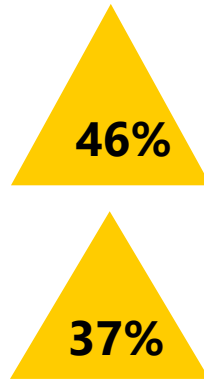

The battery capacity category from 20 mAh to 500 mAh accounted for the largest market share

**46%**

**37%**

The biggest growth will come in the Americas

The biggest growth will come from Europe

## Companies in the market

**BOLLORE**

**TOYOTA**

**ProLogium**

**IONIC**

**QuantumScape**

## Option 1

**€100,000 to €150,000**

**Drive Change: Invest in the Future of Sustainable Energy**

With an investment of 100 to 150 thousand euros, we invite you to be an essential part of our project. Join us on this exciting journey towards eco-friendly innovation and secure your place in the future of sustainable energy. Your investment counts, your impact is immense! You are listed on the website as an Investor.

## Option 2

**€150,000 to €500,000**

**Sustainable Growth: Investing in the Sustainable Revolution**

Expand your ecological influence by investing between 150 and 500 thousand euros in our project. With your investment, you're not only supporting innovation, but also driving change towards a more sustainable energy future. Join us and be part of the positive impact on the planet. Your investment, your contribution to change! You appear on our website as an investor and have a priority to invest in the company's following projects.

## Option 3

**More than €500,000**

**Vision at Big Scale: Investing in a Sustainable Future**

If your vision goes further, our investment opportunity for amounts over 500 thousand euros awaits you. With this large-scale investment, you're leading the way to a sustainable energy future. Your investment isn't just financial, it's a drive towards the sustainable change our planet needs. You appear on our website as an investor and you have priority to invest in the company's next projects as well as receive the latest updates on our projects.

# Investment Opportunity (Option – 1)

## Individual Sector Value

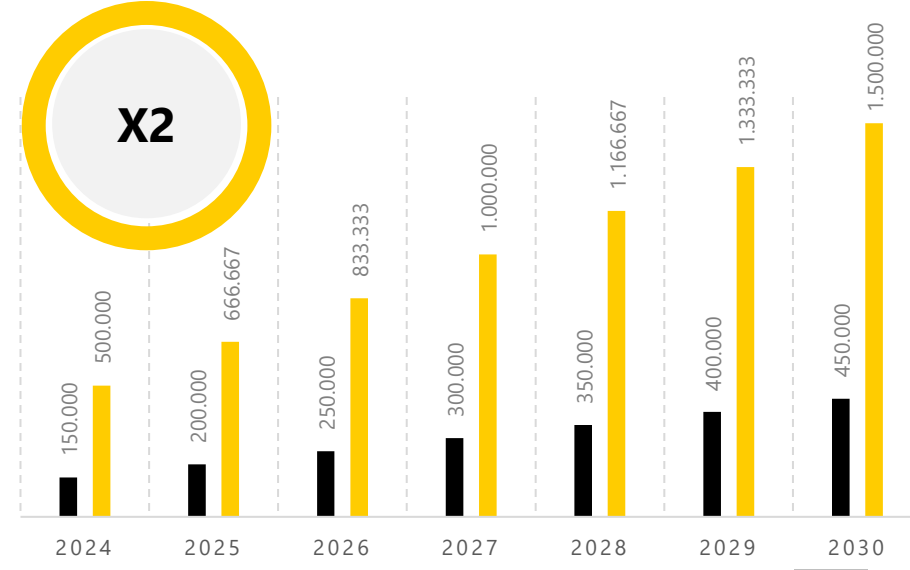

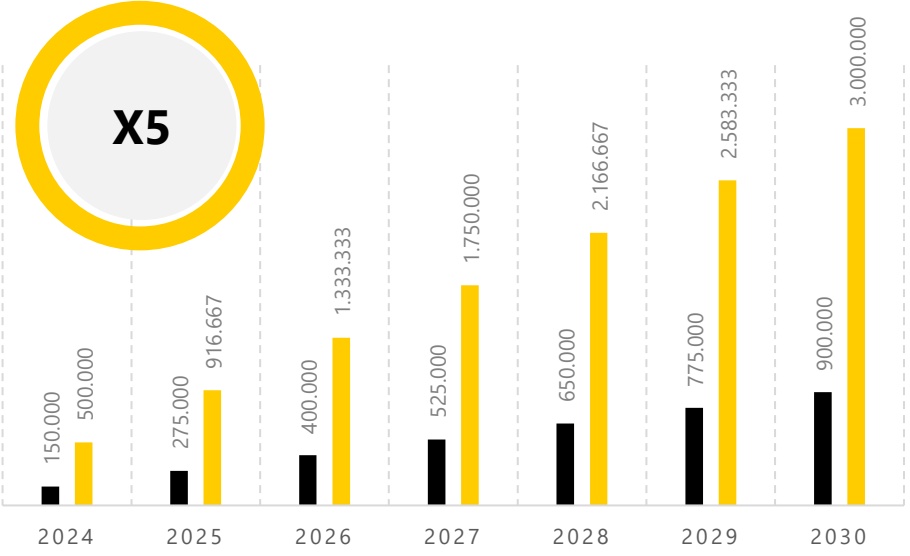

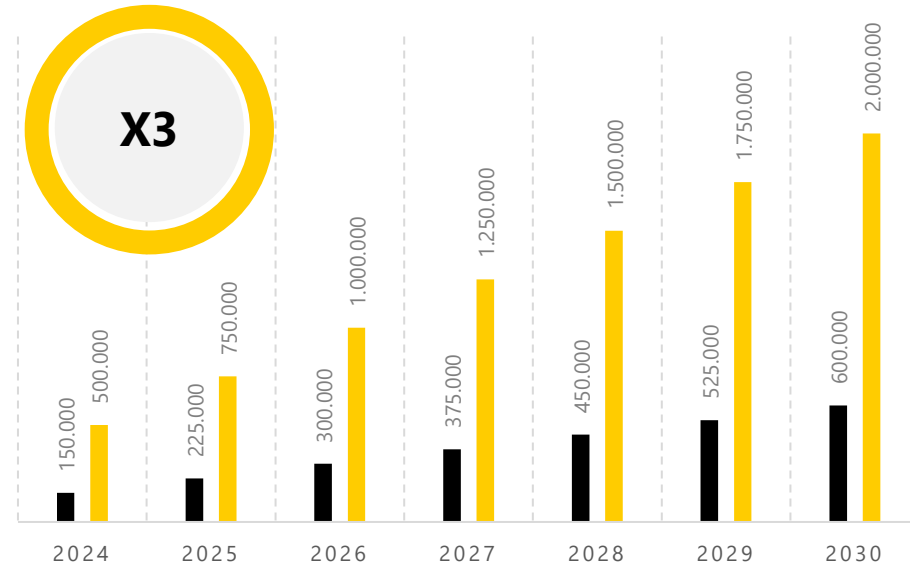

Description	
Investment Amount – Minimum	€100,000
Investment Amount – Max.	€150,000
Safety	Patents
Minimum Patent Value (Estimated)	€1,5 Bn
Duration	5 years

# Investment Opportunity (Option – 2)

Description	
Investment Amount – Minimum	€150,000
Investment Amount – Max.	€500,000
Safety	Patents
Minimum Patent Value (Estimated)	€1,5 Bn
Duration	5 years

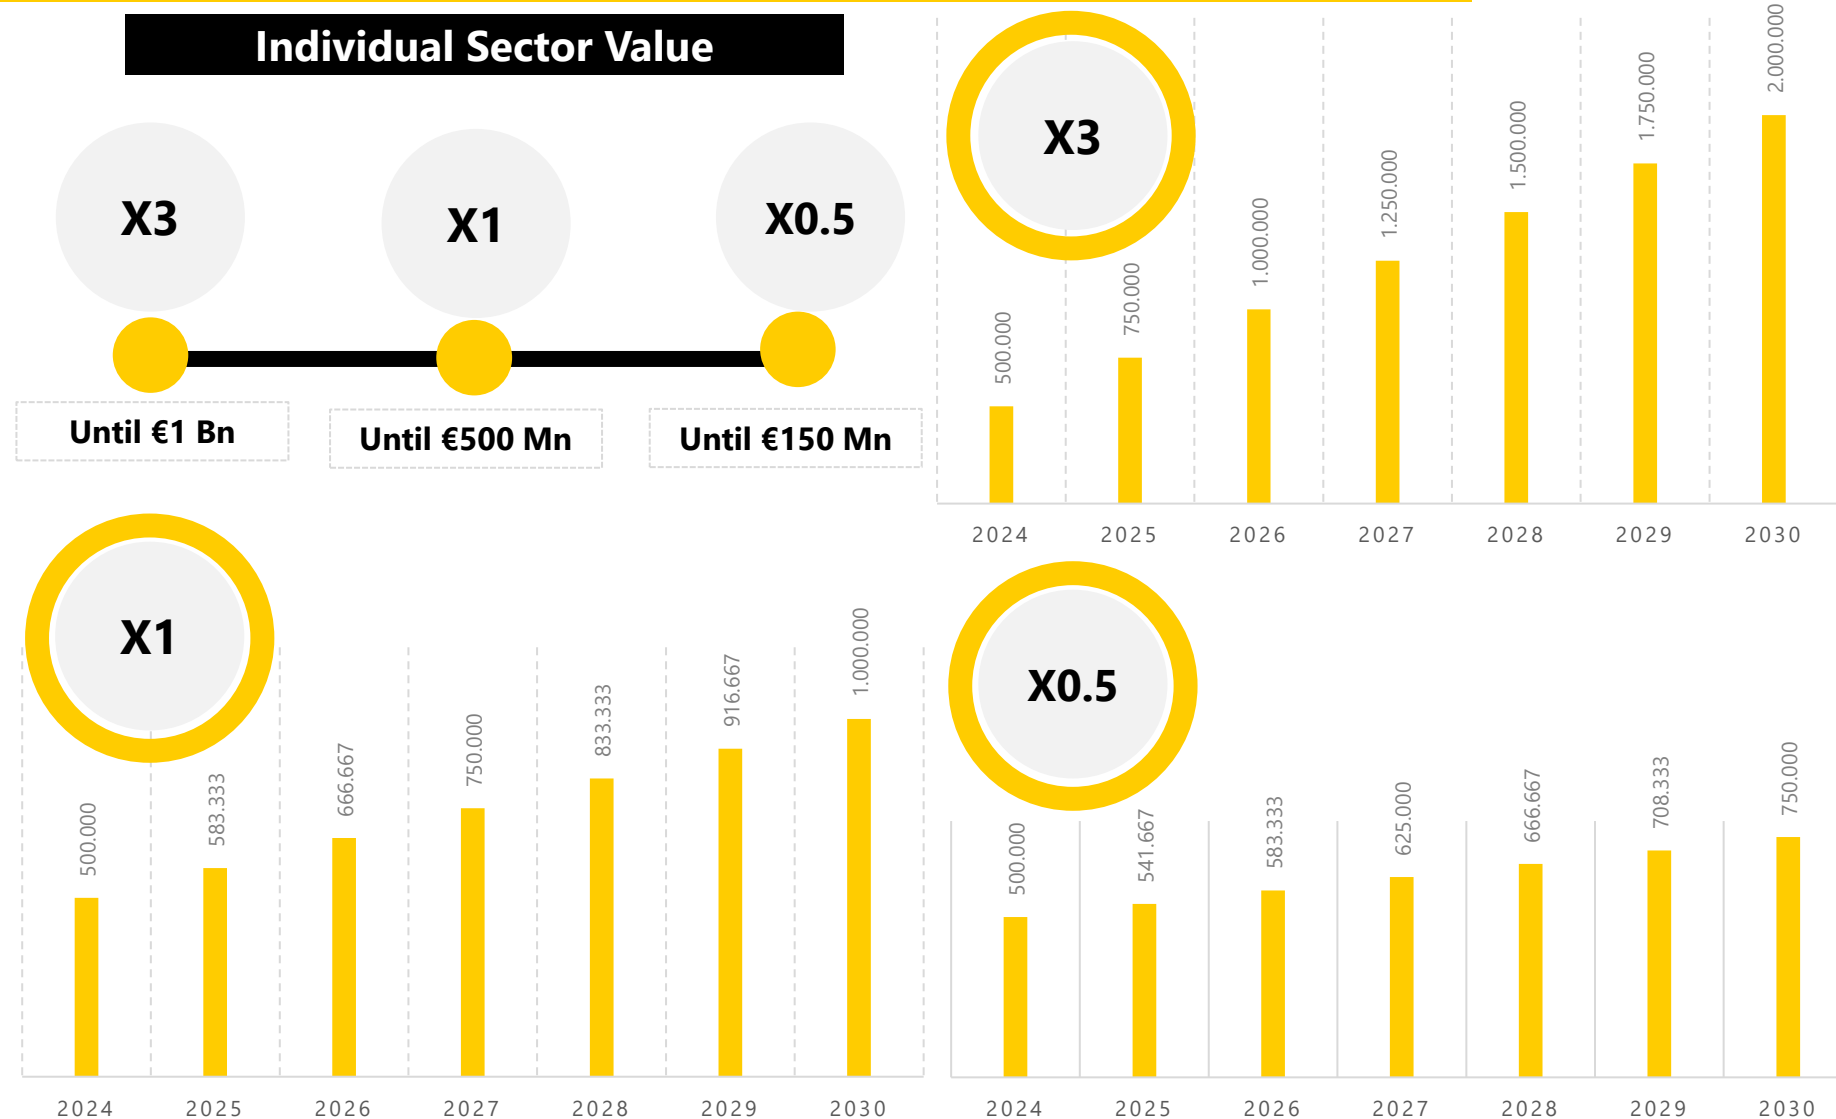

## Individual Sector Value

# Investment Opportunity (Option – 3)

Description	
Investment Amount	> €500,000
Safety	Patents
Minimum Patent Value (Estimated)	€1,5 Bn
Duration	5 years

## Individual Sector Value

# Thank you
